 gone but still alive.

 floating down towards the

Dear Fairy Godmother,

Hope this letter finds you in
best of your health and happiness.
I am just here but need your help.
Recently a very bad virus has been
around which is dangerous.

As it makes people very sick, we are unable
to go out of our homes. We are not even
able to go to school as schools are
closed.

My mother is a laborer so she has to go
for work every day. I remain worried
for her well being.

I know you had helped Cinderella in
her bad times. I am sure your
magic wand and you can do wonders
so I request you to help me.

I wish you to change this bad virus
in to good virus when I go to sleep to
tonight. I wish that when I wake up
in the morning, the good virus has
cured all the sick people and life is
changing back to normal.

I hope you make my wish come true so
that everyone is happy and healthy.
I can do anything if I have your help.
I am sure you will help me.

Aya Raafi
