$$
\text { CLASS - } 8^{\text {th }}
$$

| CLASSES <br> REQUIRED | Volume and surface area: 22 |
| :--- | :--- |
| TOPIC | Volume and surface area |
|  <br> SKILLS | To identify curved surface area and total surface area of solids <br> To calculate surface area and volume of solids, cuboids ,cylinders etc |
| LEARNING <br> OUTCOMES | Students will learn the difference between surface area and volume of solids <br> Differentiate between volume and capacity <br> Solve problems from everyday life situations |
| INSTRUCTIONAL <br>  <br> REFERENCES | Textbook , practice questions , models of geometrical figures |
| PEDAGOGY | Lecture method, demonstration of geometrical figures, peer learning |
| ACTIVITY / <br> ASSIGNMENT / <br> RESEARCH | Class assignment based on question , revision exercise, individual and group <br> activities |
| ASSESSMENT | Written assignment <br> Individual activity <br> Group activity |
| SYLLABUS FOR <br>  <br> SUMMATIVE <br> ASSESSMENT | Question based on text book, revision exercise |
