A Note To Parents

The following words are some of the sight words that we will be studying next year. Your child should spend some time (10 – 15 minutes) each day studying the words with an adult.

Please note that children are supposed to recognize words just as they would recognize a picture of an object. There is no need to memorize the spelling.

Some Tips:

- As you study the list with your child, vary the order of the words.
- This word list is meant to aid your child. Have fun and let them enjoy what they are learning. This is a great way to develop reading habits.
